Still Industry Best!

Salacious Affair Between Core  
And Cover Heats Up, Scores!

High Performance, Symmetric  
Core Ball Rocks Bowling World.

**Carbon Fiber Collusion:**  
Cover and Outer Core Infused  
for Strength, Performance.

SCANDAL/S

# SCANDAL/S!

Everyone loves a good Scandal...especially when it's more salacious than the last.

With the Semtex Hybrid CFI coverstock, finished at the same surface as the original Scandal, you get that same strong mid-lane motion you loved from the Scandal, but with more pop on the back end.

Of course, no Scandal is complete without Hammer's patent pending carbon fiber infusion in both the outer core and cover. It's the reason we offer an industry-leading three-year warranty.

**WEIGHTS 12-16LB**

**CORE SCANDAL**

**COVER SEMTEX HYBRID CFI**
